OBJECTIVE

Hey there! I'm currently pursuing B.Tech in Artificial Intelligence and Data Science at Rajalakshmi Institute of Technology, Chennai. Passionate about leveraging data-driven insights and machine learning techniques to solve real-world problems. I have hands-on experience in developing projects involving predictive modeling, data visualization, and intelligent systems. Super excited to grow as a Data Scientist and to bring innovation, performance, and creativity to every project I take on.

EDUCATION

RAJALAKSHMI INSTITUTE OF TECHNOLOGY (RIT), Chennai	Sept 2023 - Present
B.Tech in Artificial Intelligence and Data Science	
Higher Secondary Certificate (HSC) – Computer Science	2022 - 2023
Sri Aurobindo Mira Matriculation Higher Secondary, Tamil Nadu State Board 87.5%	
Secondary School Certificate (SSC)	2020 - 2021
Seventh Day Adventist School, ICSE Board 81.5%	

TECHNICAL SKILLS

- **Programming Languages** - Python, Java(Basics), SQL, HTML/CSS, JavaScript(Basic)
- **Data Science & Visualization** - Matplotlib, Seaborn, Pandas, Numpy, Power BI
- **UI/UX Design** - Figma, Adobe XD
- **Generative AI & LLMs** - Gemini, ChatGPT, Grok, Claude, DeepSeek, Llama, Qwen, Antigravity, Google AI Studio
- **Frameworks & APIs** - FastAPI, Flask API, REST APIs, Gemini API, OpenRouter

SOFT SKILLS

- **Communication Skills**
- **Teamwork & Collaboration**
- **Problem-Solving & Critical Thinking**

PROJECTS

AI Code Converter (PyMorph AI)

- Developed an AI-powered web application integrating Gemini, OpenRouter, and Groq APIs to convert Python code into multiple languages, featuring an offline transpiler fallback.
- Built FastAPI REST APIs for file management and secure execution via Python subprocess, alongside an interactive Monaco Editor frontend for seamless coding and testing.

News Article Summarization System

- Developed an AI-powered system using pdfplumber and PaddleOCR for text extraction, PEGASUS Transformer for abstractive summarization, and RoBERTa for contextual analysis. Evaluated quality via ROUGE and BERTScore metrics.

Cancer Prediction Web Application

- Built an AI diagnostic model using ResNet-34 CNN with transfer learning on 2.7 lakh samples. Integrated into a Flask web application for real-time clinical decision support.

Fleet Fuel Management (Patent No: 202441062036)

- Engineered an IoT and AI-driven system for real-time fleet fuel tracking, nearby station suggestions, and automated refueling requests to improve logistics efficiency

Smart Multi-point Thermocouple-Based Temperature Acquisition System (Patent No: 202541056836)

- Engineered a multi-sensor IoT solution for monitoring and recording solar panel temperatures; calculates power efficiency throughout the day, enabling enhanced energy management and maintenance.

Traffic Signal Emergency Swift Passage System (Patent No: 202541056837)

- Designed an IoT/ML and computer vision-powered system that detects emergency vehicles and dynamically controls traffic lights, facilitating swift and safe passage and reducing emergency response times.

INTERNSHIP EXPERIENCE

Larsen & Toubro (L&T) — Chennai, India

NOV 2025 - JAN 2026

Information Systems Intern

- Fine-tuned and deployed the dots OCR model (sourced via Hugging Face) on proprietary L&T receipt documents, successfully pushing the model into real-time production use.
- Worked on document intelligence extraction systems and tested REST APIs using Postman
- Evaluated OCR performance gaps, supported UI/UX reviews for internal tools, and researched multimodal models.

AWARDS / ACTIVITIES

VIDYUTRENZ 2025 (Project EXPO).

- Won 1st Runner up in Project Expo at Chennai Institute Of Technology, Kundrathur.

Secured best performer award in EV centre(Rajalakshmi Institute Of Technology).

TECH STROM'25 (Project Expo).

- Participated and secured good experience Project Expo at Vel Tech Multi Tech college,Avadi.

ADDITIONAL INFORMATION

Languages: Tamil, English

Certifications:

- Certificate of Completion: UI/UX Mega Workshop – NXT-WAVE CCBP 4.0, December 2024
- Build Your Own Responsive Website – NXT-WAVE CCBP 4.0, January 2025
- Model Context Protocol (MCP) Workshop — NXT-WAVE CCBP 4.0, November 2025
- Robotic Process Automation using Automation Anywhere — NXT-WAVE CCBP 4.0, February 2026
